ELECTRIC ECLECTICS 3KSTATIC RETURN WITH NEW LP: IDOL PLEASURES

18 OCTOBER 2019 – dPulse Recordings is pleased to announce the forthcoming release of **Idol Pleasures**, the new album from eclectic electronica collective **3kStatic**.

Idol Pleasures by **3kStatic** will be released December 6, 2019.

In a 21-career that's seen 3kStatic collaborate with rock, pop and electronic music royalty – all the while spinning multiple DJ chart Top 25s, an iTunes Europe #1 album and sync placements across MTV reality programming– 3kStatic has evolved along with the digital music world.

That evolution continues on **Idol Pleasures**, a 9-track, 49-minute offering that highlights the Dadaist 'cut and paste' craft that has seen the project attract a constellation of high-profile cohorts.

Lead single '**Lust For Conquest**' highlights the album's nod to electronic music pioneers, capturing a uniquely retro vibe, albeit one propelled by distinctly contemporary undertones.

Idol Pleasures also sees **3kStatic** delving more deeply into a funkified fusion of Afro House and tech, punctuated by live sounds – with the project's signature use of sinister shortwave noises lurking not far in the distance.

Recorded between Summer 2018 and Autumn 2019, **Idol Pleasures** is uncharacteristically devoid of collaborators, and marks a re-calibration of the **3kStatic** project – back to sound of the underground.

Idol Pleasures by **3kStatic** is released on digital, disc and vinyl from December 6, 2019.
