PREVIOUS SUCCESSES:

- Multiple DJ Pool charting tracks, including 10 Top 25 singles
- #1 iTunes Europe Dance album (2006)
- 2006 and 2008 GRAMMY Award entry candidates
- Placement in multiple TV and indie film projects, including MTV's Real World, Hypnotiq Vodka and many more.
- Multiple high-profile collaborations and remixes, including: Lords Of Acid, KMFDM, Pop Will Eat Itself, Tweaker, Billie Ray Martin, Richard H. Kirk, Stephen Mallinder, George Clinton & the P-Funk All-Stars, The Orchestra/EL0 Part II, Vile Evils, Virgil Howe (Yes), Pete Jones (Public Image Ltd), David Mannion (Kansas) and more.

Hailed in the German music press as 'anarchist disco' with 'roots in early Industrial but the finesse of a Warp Records band', 3kStatic returns with *Telestial*, the final entry in a trilogy of stridently socially-inquisitive concept albums.

A staple of MTV reality programming and indie film sound tracks, the music of 3kStatic has also topped the iTunes Europe and DJ charts, often with legendary collaborators in tow.

Telestial continues that evolution, seeing contributions from acclaimed indie rockbassist and vocalist Monique Ortiz; Darren Chorley of HYPNO Soundsystem; emerging artists Terrapin and Electric Pink Love and former PiL member Pete "Joyless" Jones.

The 12-track release is highlighted by contemporary interpretations of Cabaret Voltaire originals "No Resistance", "Talking Time" and "Plasticity 6".
